A From automated-search records to candidates
all organism records (literature + databases)
R1 called pathogen or parasite
R2 one of the six categories
R3 fungi / bacteria harm the beetle
R4 primary source
R5 source not in the dataset
R6 focused primary beetle study
3,667 (12,925 records)
1,284 (4,211 records)
1,073 (3,213 records)
1,035 (3,097 records)
892 (2,352 records)
759 (1,665 records)
373 (855 records)
