A Sequential filtering of automated-search records to candidate additions
All extracted associations
R1: Pathogen or parasite
R2: One of the 6 target groups
R3: Fungi/bacteria harm beetle
R4: Primary research source
R5: Absent from manual dataset
R6: Focused beetle study
3,667 sources (12,925 records)
1,284 sources (4,211 records)
1,073 sources (3,213 records)
1,035 sources (3,097 records)
892 sources (2,352 records)
759 sources (1,665 records)
373 sources (855 records)
